

## ReligiousOrganizationData\_Specification\_v1.0.tsv

| Column No. | Item Name                           | Data Type           | Description                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|------------|-------------------------------------|---------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1          | ID                                  | Numeric             | A unique internal ID assigned by this site to identify each corporation or religious organization.                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 2          | Corporate Number                    | String (13 digits)  | The 13-digit corporate number assigned by the National Tax Agency. Blank for organizations without juridical status.                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 3          | Name                                | String              | The official name of the religious organization or religious juridical person, standardized based on public data from the Agency for Cultural Affairs, local governments, and the National Tax Agency.                                                                                                                                                                                                                                                                                                                                                                        |
| 4          | Prefecture Code                     | String (2 digits)   | A two-digit prefecture code based on the JIS standard (e.g., 01 = Hokkaido, 13 = Tokyo).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 5          | City Code (3)                       | String (3 digits)   | A three-digit code representing the municipality within each prefecture. Combined with the prefecture code, it identifies the administrative area.                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 6          | City JIS Code (5)                   | String (5 digits)   | A five-digit JIS code obtained by combining the prefecture code and the municipality code.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 7          | Postal Code                         | String (7 digits)   | The 7-digit postal code corresponding to the registered address (without hyphen). Blank if unknown.                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 8          | Address                             | String              | The address of the religious organization. Normalized based on registry and administrative data.                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 9          | Corporate Number Assignment Date    | Date                | The date the corporate number was assigned by the National Tax Agency. Blank for organizations without juridical status.                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 10         | Last Updated                        | DateTime            | The last update date and time in this site's database. Updated when the latest data from the NTA or local governments is imported.                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 11         | Tradition Classification Code       | Numeric             | A code representing the religious tradition or denomination. Classification is as follows: (1 = Buddhist, 2 = Shinto, 3 = Christian, 4 = Other religions)                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 12         | Organization Type Code              | Numeric             | A code representing the classification of the religious organization. Classification is as follows: (1 = Comprehensive religious juridical person under the Minister of Education, Culture, Sports, Science and Technology; 2 = Individual religious juridical person under the Minister of Education, Culture, Sports, Science and Technology; 3 = Comprehensive religious juridical person under Prefectural authority; 4 = Individual religious juridical person under Prefectural authority; 5 = Other Affiliation (non-juridical); 6 = Other Individual (non-juridical)) |
| 13         | Religious Juridical Person          | Numeric (0/1)       | "1" if the organization has legal status as a religious juridical person, "0" if not.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 14         | Confirmed By                        | String              | The source used to confirm the juridical status of the organization (Bunka = Agency for Cultural Affairs, Pref = Prefecture, City = Municipality, NTA = National Tax Agency, Other = Other source).                                                                                                                                                                                                                                                                                                                                                                           |
| 15         | Has Representative                  | Numeric (0/1)       | "1" if the representative's name is confirmed; "0" if unknown.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 16         | Has Phone                           | Numeric (0/1)       | "1" if a phone number is confirmed; "0" if unknown or not listed.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 17         | Has Address                         | Numeric (0/1)       | "1" if the address is confirmed; "0" if unknown or not listed.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 18         | Affiliation Corporate Number        | Numeric (13 digits) | The corporate number of the Comprehensive religious juridical person to which this organization belongs. Blank for organizations without Affiliation.                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 19         | Affiliation Name                    | String              | The name of the Comprehensive religious juridical person (affiliated parent organization). Blank for Individual religious juridical persons.                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 20         | Number of Subordinate Organizations | Numeric             | The number of Affiliated religious juridical persons under this Comprehensive religious juridical person. Blank for Affiliated organizations.                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 21         | Number of Same-Name Organizations   | Numeric             | The number of organizations that share the same name. Used for distinguishing organizations with identical names.                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 22         | Registry Closed                     | Numeric (0/1)       | "1" if the corporate record has been marked as "Closed" (proc_code = 21) in the National Tax Agency's corporate number data.                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 23         | Registry Closed Date                | Date                | The date on which the reason for closure of the corporate registry occurred, as published by the National Tax Agency.                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 24         | NTA Last Process Code               | String (2 digits)   | The code representing the latest process recorded in the NTA corporate number data. The code meanings are: 01 = Newly established, 11 = Change of trade name or organization name, 12 = Change of domestic location, 13 = Change of overseas location, 21 = Closure of registry, 22 = Restoration of registry, 71 = Absorption merger, 72 = Invalid absorption merger, 81 = Deletion of trade name registration, 99 = Deletion.                                                                                                                                               |
| 25         | NTA Last Process Date               | Date                | The date on which the latest process was published in the National Tax Agency corporate number API. Indicates the most recent status of the corporation.                                                                                                                                                                                                                                                                                                                                                                                                                      |
